Facts and Fallacies *Calidad Toner Cartridges*

VGR Distribution as Official Distributor of Calidad

VGRD as the Official Distributor introduces Calidad products in Mauritius and neighbouring regions. Calidad is an Australian brand offering professional quality compatible toner cartridge. VGR Distribution is now offering a wide range of cartridges for every major printer on the market.

1. Calidad can save you up to 50%

Whether you are printing colour or just black, Calidad alternative cartridges offer a cost saving of up to 50% compared to the cost of original cartridges.

2. Calidad delivers superb print quality

Calidad inks have been perfected to give you a brilliant result every time. Calidad Toner cartridges consistently produce vibrant colours and dark crisp blacks. Calidad compatible cartridges have the same capacity as the original manufacturer's cartridge; sharp, clear and consistent print.

3. Calidad sources only the best inks available

Through research and development, Calidad produces results comparable to the original manufacturer's product. All the inks used are carefully tested for their physical and chemical properties, continuity of the printing quality, compatibility with the print head and other inks, clarity and colour, stability of printing colour and stability towards the light. In addition, all ink formulated for each specific Calidad product are constantly re-evaluated for their compatibility with new printers.

4. Our success is proof of our quality

Like any dealer, Calidad relies on repeat purchases. Our focus on producing the top-quality alternative product at a great price is the key to our ongoing success. We pride ourselves on developing loyal customer relationships by providing reliable, quality products that customers come back for time and time again.

5. All Calidad products are Guaranteed

VGR Distribution guarantees a warranty period of 1 year from date of purchase. Warranty does not cover products that have not been used according to Calidad's or printer manufacturer's instructions.

This warranty does not cover damage resulting from:

1. accident, abuse, misapplication, or any unauthorized repair, modification or disassembly;
2. improper operation or maintenance, or usage not in accordance with product instructions or your printer manufacturer instructions.

In case any Calidad products are found faulty upon purchase and within the warranty period, the distributor guarantees to replace the cartridge.*

Conditions Apply

6. Printer Protection

Using Calidad Laser toners will not void the statutory warranty of your printer. Calidad ensures that under normal use, its products will not cause damage or abnormal wear to any printer. In the unlikely event that your printer is damaged by Calidad Product upon proof and including a valid claim under this warranty during the warranty period*, VGR Distribution will at its option repair the product.*

Conditions Apply

7. Calidad is a reliable and affordable alternative

The Toner consumables business is a rapidly growing market and that means big business to the original manufacturers supply and sell expensive cartridges and refills. Since 1994 Calidad has been producing an alternative range of high quality, affordable and totally compatible toner cartridges. Our aim is to save consumers money on expensive Ink consumable products.
